

# Russian Military Blows Whistle on Bill Gates' 'Bioterrorism' Plot to 'Reduce Population'

By Frank Bergman | slaynews.com • January 22, 2025 - 12:57 pm

Russia's Ministry of Defense (MOD) has accused billionaire Bill Gates of funding "bioterrorism-related activities with the goal of population reduction."

The Russian MOD raised the alarm in a press briefing where officials asserted that the Gates Foundation is a primary sponsor of the U.S. African Biolab Complex.

Addressing the media, Major General Aleksei Rtishchev, Deputy Chief of the Nuclear, Chemical, and Biological Protection Troops of the Russian Armed Forces, warned:

"American specialists capable of enhancing the pathogenic functions of microorganisms are actively operating."

Rtishchev claims that the Russian military has uncovered evidence showing that Gates has been funding U.S. biological activity in Africa.

Interestingly, Rtishchev also alleged that the Clinton Foundation is tied to the experiments.

During the briefing, Rtishchev stated:

“The US administration views the region as an unlimited natural reservoir of dangerous infectious agents and a testing ground for experimental medical drugs.”

The following translated key statements and slides from the briefing were obtained and shared by Sputnik in a [post on X](#):

The U.S. military's biological presence on the African continent is expanding rapidly, according to Rtishchev.

“American specialists capable of enhancing the pathogenic functions of microorganisms are actively operating in Africa,” the Russian MOD leader stated.

The Russian Defense Ministry has unveiled which officials from the United States and various African nations are involved in the implementation of military biological programs on the African continent.

Globalists view the region as an abundant reservoir of dangerous infectious agents and a testing ground for experimental medications, Rtishchev said.

He added that the U.S. government has been employing a biological risk management system in Africa, which has previously been tested in Georgia and Ukraine.

The sponsors of these biological activities include but are not limited to the Gates Foundation and Clinton Foundation, Rtishchev asserted.

According to the Russian Defense Ministry, the U.S. has been actively engaged in:

- Nigeria: A joint medical research center and a military medical laboratory for the armed forces were established in 2024.
- Kenya: The US Army Military Medical Center has deployed a network of field stations to monitor the spread of infectious diseases throughout Equatorial Africa.
- Senegal: A new \$35 million laboratory facility is nearing completion. This project involves the same Pentagon contractors that have worked in the former Soviet Union, including Armenia, Georgia, Kazakhstan, and Ukraine.

- Ghana and Djibouti: The US has established branches of the National Naval Medical Center and is actively addressing natural disease outbreaks and isolating pathogens.

Rtishchev also alleges the Gates Foundation has been conducting a project in 18 African countries to study the characteristics of infection occurrence and the resistance of pathogens to medical treatments.

These experiments are deliberately exploiting the economic challenges faced by African nations in healthcare to organize research schemes, the general cautions.

Rtishchev noted that Washington D.C. elites fear Russia and China may expose American military and biological ploys.

The United States often does not disclose the ultimate goals of its experiments to partners, who are frequently unaware of the associated risks.

Rtishchev also accused the United States of illegally receiving Ebola virus samples exported from Sierra Leone in 2014.

Pathogens that fall into the Pentagon's area of interest later emerge as a pandemic, with American pharmaceutical companies reaping the benefits, Rtishchev warned.

McCullough Foundation epidemiologist [Nicolas Hulscher](#) weighed in on the explosive allegations from Russia's military.

The Russian Ministry of Defense briefing revealed that "the Gates Foundation is a primary sponsor of the U.S. African Biolab Complex," Hulscher notes.

"All individuals, regardless of their income or status—including Bill Gates—who have participated in or supported bioterrorism-related activities with the goal of population reduction or societal disruption will ultimately face the appropriate legal consequences," he added.

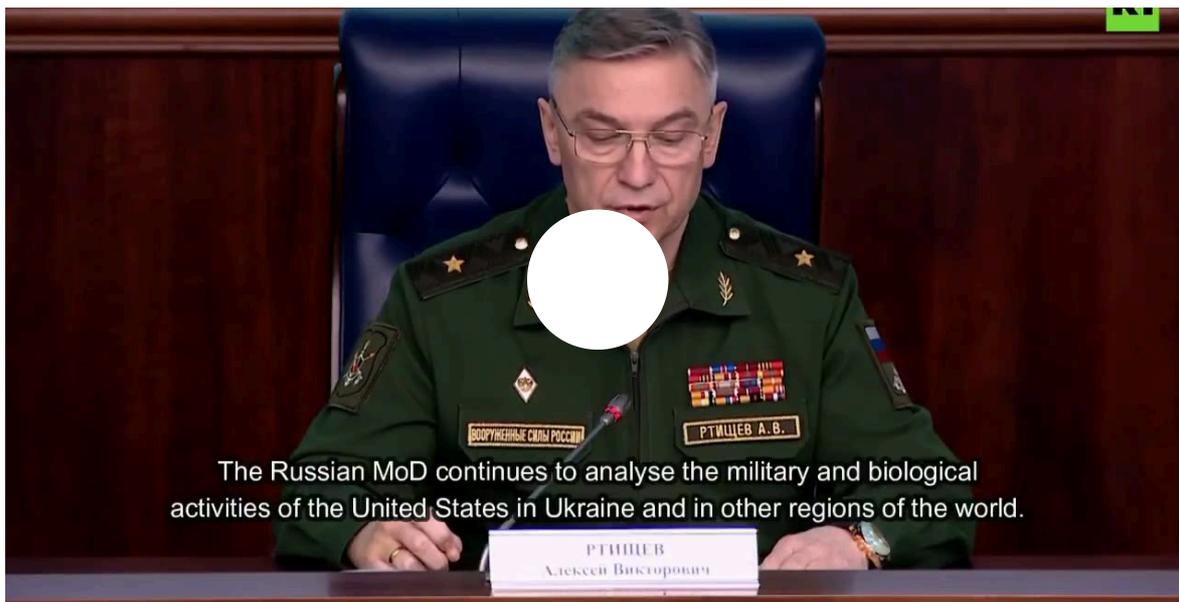

Hulscher cited 18 U.S. Code § 175 – Prohibitions with respect to biological weapons – which states:

"Whoever knowingly develops, produces, stockpiles, transfers, acquires, retains, or possesses any biological agent, toxin, or delivery system for use as a weapon, or knowingly assists a foreign state or any organization to do so, or attempts, threatens, or conspires to do the same, shall be fined under this title or imprisoned for life or any term of years, or both."

During an interview on Media Blackout with Marris Zee, Hulscher raised the alarm about Gates's efforts to trigger another pandemic while commenting on Russia's warning.

### Russian Military Blows Whistle on Bill Gates' 'Bioterrorism' Plot to 'Reduce Population'

It comes after Gates recently made a disturbing confession about his experiments on people in third-world nations.

As Slay News [reported](#), Gates provoked outrage by gloating that he has been using India as his “laboratory” for testing experimental “vaccines.”
