An article that asked a critical question about vaccines...

If ALL Vaccines Are Unsafe And Ineffective, Then Why Are They Being Foisted on Humanity?

RISK OF DEATH VACCINES VS. DISEASES

DISEASE	RISK OF DISEASE DEATH	RISK OF VACCINE DEATH

There is not a single vaccine that is safe, effective, or in any way necessary; in fact, all of the major vaccines are actually far worse than the diseases they fraudulently purport to protect against; to wit:

...is **partially** answered by the following grim factoids:

In a bombshell discussion, Senator Ron Johnson, Polly Tommey, and Dr. Brian Hooker exposed how pediatricians are financially incentivized to push vaccines—at the expense of parental choice and medical ethics.

The Ugly Truth: - HMOs pay doctors \$200–\$600 per fully vaccinated child—with top earners making over \$1M annually in bonuses.

.Refuse vaccines? Many pediatricians drop families to protect their bottom line.

Fear-Based Lies:

- “Your newborn will bleed out without Vitamin K!”
- “Your child will die of cancer without the HPV shot!”
- No informed consent—just threats and coercion.

This isn't medicine—it's a profit-driven racket disguised as healthcare.

When will the corruption end?

The Medical-Industrial Complex corruption only ends when mass arrests commence.

HEALTH CARE OUTCOMES: PREVENTIVE HEALTH

CHILDHOOD IMMUNIZATIONS – COMBO 10	
Product lines	BCN Commercial

Continuous enrollment	Must be continuously enrolled 12 months prior to child's second birthday

Numerator	The number of children who completed vaccinations as defined above
Denominator	The eligible population
Level of measure	Provider level
Target: COMM	63%
Payout: COMM	\$400 per Combo 10 completed for each eligible member

So a health insurance company is paying pediatricians a \$40,000 bonus for fully vaccinating 100 patients under the age of 2, with pediatricians losing the entire bonus if they are not fully vaccinating at least 63% of these infant patients, including the completely ineffective flu vaccine which actually increases the chances of these children coming down with the flu by at least 26%.

Another question arises: why would health insurance companies be involved in bribery that is hurting their bottom line when they are allegedly in the business of maximizing profits while keeping their customers as healthy as possible to limit future medical payouts?

How about the Modified mRNA slow kill bioweapon “vaccines?” Same deal, with primary care providers bribed by the democidal governments colluding with BigPharma and said “health” insurance companies:

COVID-19 Vaccine Provider Incentive program

Getting vaccinated against COVID-19 is one of the best and safest ways people can protect themselves and their families against the virus. As a participating practice in the COVID-19 Vaccine Incentive program, we recognize your hard work by offering incentives for helping patients make the choice to become vaccinated.

Eligibility

The COVID-19 Vaccine Provider Incentive program is open to you if you are a participating Kentucky primary care provider with an Anthem Blue Cross and Blue Shield Medicaid (Anthem) panel size of 25 or more members. All Anthem members identified as receiving COVID-19 vaccination services are included in the methodology. Vaccine results will be determined by a COVID-19 vaccine claim or by confirmation from the Kentucky Vaccine Registry.

The results will be calculated for two time periods:

- September 1, 2021 – Initial incentive payment
- December 31, 2021 – Final incentive payment

How you can qualify for a bonus

If your practice meets the below thresholds for vaccination with at least one dose by September 1, 2021, you will receive the initial incentive payment based on the following rates:

- 30% Anthem members vaccinated – \$20 bonus per vaccinated member
- 40% Anthem members vaccinated – \$45 bonus per vaccinated member
- 50% Anthem members vaccinated – \$70 bonus per vaccinated member
- 60% Anthem members vaccinated – \$100 bonus per vaccinated member
- 75% Anthem members vaccinated – \$125 bonus per vaccinated member

The final incentive payment is calculated based on members who are newly vaccinated between September 1, 2021 and December 31, 2021 (see the *Appendix* for calculation examples). If your practice meets the below thresholds for vaccination with at least one dose by December 1, 2021, you will receive the final incentive payment based on the following rates:

- 30% Anthem members vaccinated – \$100 bonus per newly vaccinated member
- 40% Anthem members vaccinated – \$150 bonus per newly vaccinated member
- 50% Anthem members vaccinated – \$175 bonus per newly vaccinated member
- 60% Anthem members vaccinated – \$200 bonus per newly vaccinated member
- 75% Anthem members vaccinated – \$250 bonus per newly vaccinated member

The rest of the answer as to why vaccines are being foisted on humanity lies in the fact that they are a critical component of the NWO globopedo cabal's greater depopulation program:

Stay away from any and all vaccines.

Protect all children from any and all vaccines.

Do NOT comply.
