The genocidal monster Netanyahu is not a new creation. He was an aide to his murderous master, Ariel Sharon. He has been directly or indirectly governing Israel and the USA for 30 years. The fact that he has been governing the US has become abundantly clear during the Trump era. With Epstein and other blackmail teams he has formed over the past 30 years, all the perversions of US elites and presidents have been documented and are now being recklessly used to fuel a world war.

Before them, there were hundreds of murderers and terrorists like Netanyahu in the state of Israel.

So who is using Israel?

The Rothschild dynasty, the bankers who financed wars in Europe for nearly 500 years, spearheaded the establishment of Israel.

In an interview before his death, the elder **Jacob Rothschild** openly stated, "Our family founded Israel."

In fact, it was founded in Istanbul. It's a long story, and I'll discuss it in another article.

The Rothschild dynasty is also closely connected to the British Royal Family.

The City of London financial center, where 80 percent of the world's money laundering comes from, is a private sphere with its own laws and regulations and is under the control of the Rothschild family.

Jewish banking capital city played a significant role in **Lord Palmerston's** proposing the idea of Israel in the mid-1800s. And of course **Benjamin Disraeli**.

The Balfour Declaration in 1917 is a result of these facts.

.

Foreign Office,
November 2nd, 1917.

Dear Lord Rothschild,

I have much pleasure in conveying to you, on behalf of His Majesty's Government, the following declaration of sympathy with Jewish Zionist aspirations which has been submitted to, and approved by, the Cabinet

His Majesty's Government view with favour the establishment in Palestine of a national home for the Jewish people, and will use their best endeavours to facilitate the achievement of this object, it being clearly understood that nothing shall be done which may prejudice the civil and religious rights of existing non-Jewish communities in Palestine, or the rights and political status enjoyed by Jews in any other country"

I should be grateful if you would bring this declaration to the knowledge of the Zionist Federation.

Balfour Declaration

Yes, the idea of Zionism originated in British politics, but back then, just as today, it was the Rothschild dynasty that controlled British politics from shadows. For example, the idea of NATO was conceived in the 1930s by a royally-backed think tank founded by British capitalists like Rothschild and Cecil Rhodes (round table) and implemented after the war.

The goal is always the same: to penetrate the impenetrable, to penetrate untouchable places and acquire new colonies. They began with communism and then, geopolitically, they invaded every place they couldn't capture. NATO and Israel are essentially at the service of global finance capital—simply put, the Rothschild house. Netanyahu is the most important actor in the Greater Middle East Project with the "Clean Break" project he imposed on the US in 1997. Palestine, Lebanon, Iraq, Libya, Syria, Yemen, and now Iran have all been devastated, driven to fragmentation under Netanyahu's coordination.

Netanyahu, having reached the end of his political career, is now seeking to start another major war. He will overthrow the al-Qaeda militants he supported in Syria and replace them

with SDF/YPG/PKK forces. Then, using his domestic political clout in Turkey, he will force Ankara to accept this. He will then incite an attack on Iran.

Trump is already in Netanyahu's back pocket.

If we look at the structure in Türkiye, we see that all the projects of NATO and Israel have been realized.

As can be seen from the recent Iranian attack and the abandonment of Libya and then Syria, Israel, which has also signed a secret immunity agreement with Russia, sees little obstacle in its path. Unless China pulls off a surprise, of course!

However, the world is changing rapidly, and Netanyahu is in a hurry.

The US is weakening, the G-7 can no longer claim to be the world's leader, and the BRICS, albeit lame, are drawing a new geopolitical and economic map. Global finance capital currently operates solely on dirty money, constantly trying to prevent the financial bubble they've been inflating since 2008 from bursting. That's why they want to start a world war.

Netanyahu will eventually attack Iran, and neoconservative NATO will eventually target Türkiye. But it appears the wheels of history are no longer moving in the West's favor. The West can no longer produce as it once did, nor can it control the world and the seas. Things can't work solely on free cash and financial games.

The technocratic neo-feudalism project launched by the Western wealthy with the pandemic and now under the pretext of climate change is also highly unlikely. Because they know this, they've effectively strung Netanyahu along, the tip of the imperialist terror iceberg. He's accompanied by Trump, a half-witted lunatic who's clearly been held captive by the Epstein files.

I hope China and Russia are aware of the gravity of the situation.

I expect a world war in 2025-2026. It will be earlier than 2030, as predicted.
