There's no reason to vaccinate. There never was. We've been fed lies for over 100 years.

By **Larry Cook**

The vaccine topic is very controversial and the amount of information about this topic on both sides (pro & anti) is staggering. I understand that it can be very difficult for you or any parent to sift through mountains of information and make heads or tails of it all. So, on this page I'm going to try and give you the fastest possible, most important points, with links to more information so you can do

the in-depth research that you MUST DO in order to come to a conclusion that vaccines are neither safe, nor effective, and therefore, are not needed for your children, and were never needed for children. Let's begin!

Vaccines Never Saved Us!

Death rates already dropped over 98% before toxic vaccines were pushed onto populations.

Vaccination & Natural Immunity

- **Vaccines never saved us:** DEATH from all infectious diseases dropped over 98% before most vaccines were introduced. Measles deaths dropped 99.96% before the vaccine was introduced. Death from Scarlet Fever also dropped in the same way, and there's no vaccine for it.
- Unvaccinated children are healthier than vaccinated children according to **numerous studies** and the parents who have both.

- Vaccines destroy immune CAPACITY, which is why unvaccinated children recover from illnesses faster than vaccinated children.
- HEALTHY children do not die from infections – malnourished children do. Vaccines are not the solution – proper nutrition is. Vitamins A & C easily treat measles, for example.
- HOMEOPATHY was used in the 1800s and early 1900s to stop disease outbreaks, but **was stopped in the early 1900s** by the allopathic medical lobby to make way for toxic vaccines and drugs.
- High dose vitamin C – in the form of IVs, IMs and oral use – **was used successfully to treat and cure a wide variety of diseases**, including polio, since the 1950s, and is still used today by alternative doctors.
- Vaccines do not confer immunity – meaning, they do not work. When a child winds up with the symptoms the child was vaccinated for, the unvaccinated are blamed, instead of the faulty vaccination PROCESS.
- Healthy, well nourished children recover from childhood illnesses, and respond well to herbs, homeopathy, nutritional supplements and other safe and effective remedies – see book below.
- Vaccines **SUBDUE immune response**, but this is NOT immunity – infections just go deeper into the body.
- Vaccines aggressively overstimulate the immune system in order to create antibodies to injected antigens, but again, that is not immunity AND that overstimulation of the immune system never dies down entirely, giving rise to chronic health ailments.
- **Children have lived on in spite of being poisoned by vaccines, NOT BECAUSE OF IT (*extremely important*).**
- Vaccines cause autoimmune disorders, type 1 diabetes, cancer, asthma, allergies, eczema, seizures, autism, death, and dozens of other lifelong damaging ailments. See **Vaccine Dangers** for full overview.
- Vaccines ALWAYS cause some harm, and often cause a lot of harm. See my **Vaccine Injury Treatment Guide** if your child is vaccine injured.
- **VACCINE EXEMPTIONS** are available in most states in order for children to attend school or daycare without vaccines. Click either **exemption**

information or **California exemption information** for details.

Vaccines: A Reappraisal

Drawing on fifty years of experience caring for children and adults, Dr. Richard Moskowitz examines the risks of vaccines and why natural immunity is superior to vaccination. Weaving together a tapestry of observed facts, clinical and basic science research, news reports from the media, and actual cases from his own practice, he offers a systematic review of the subject as a whole.

He provides scientific evidence for his clinical impression that the **vaccination process, by its very nature, imposes substantial risks of disease, injury, and death** that have been persistently denied and covered up by manufacturers, the CDC, and the coterie of doctors who speak for it.

The Unvaccinated Child: A Treatment Guide for Parents and Caregivers

MUST OWN BOOK: The Unvaccinated Child is an unparalleled naturopathic treatment guide for common childhood illnesses. Its style is reader friendly for parents without a medical background or for practitioners looking for treatment options to offer their patients.

The Unvaccinated Child reviews the history of germs and how a child's terrain is a better indicator of health or disease. The naturopathic foundations of health familiarize parents with the necessary steps to create long term health. The authors go through each childhood illness children are commonly vaccinated for and offer naturopathic treatments such as herbs, supplements, essential oils, homeopathy, hydrotherapy and nutrition as tools to work through each illness.

Conclusion

I've been an anti-vaccine activist since 2015 because vaccines only cause harm, and do not work as advertised. **The destruction of the immune system is NOT immunity.** The unvaccinated are healthier. Getting sick and then recovering primes the immune system. And in cases like the measles, once a child has gone through the process, there's lifelong immunity.

My hope is to give you enough information on this web page to inspire you to dig in, and really take some time to learn the topic. You can do that by watching Vaxxed II, reading the book by Dr. Moskowitz, and going through my free online course, at the minimum. The Unvaccinated Treatment Guide is essential and should be in every home where there are children – using natural remedies and treatments is infinitely better than going to urgent care or the ER, where children will be poisoned with more drugs, instead of helped.

Even though I continue to be a proud and fierce Warrior Mom; after 25 years in this realm, I no longer have the energy to discuss my daughter's "V" injury and how they destroyed her body and overall affected her life... and mine.

Thankfully, the torch has been passed to many, such as Larry Cook, who are advocating with an arsenal of deep dive FACTS to protect your children and yourself. And bonus...with healthier solutions!

Look, I get it, I trusted the doctors too. It was how we were raised. But wow were we misled down a path full of greed and corruption.

It doesn't cost you a dime to witness the facts. You deserve to know the truth away from the billion dollar advertising budget of Big Pharma. Which BTW - is protected from any liability compliments of the US Government.

While I no longer publicly advocate as I once did - our story will be detailed in my upcoming book "Me, Myself and Florentina."

Thank you Larry for holding the truths to the fire!
